INTRODUCTION

The Village of Radium Hot Springs is located in the Columbia Valley at the south entrance of Kootenay National Park. Known for its world famous mineral pools, the community hosts numerous dining and accommodation options for its many tourists, with a myriad of activities in all four seasons. Radium boasts a resident herd of Rocky Mountain Big Horn Sheep that can be found grazing in and around the village in the spring and fall, and a front row seat watching rams butt heads in rutting season. “The mountains shall bring peace to the people” is Radium’s greeting as you enter this scenic locale. See www.radiumhotsprings.com.

This report provides a profile of several indicators of well-being for the community of Radium Hot Springs. As part of the State of the Basin program, the RDI has created community-specific reports for all municipalities in the Columbia Basin-Boundary region. The primary goal of the State of the Basin is to provide access to relevant data that is easily accessible to help inform decisions that lead to greater community and regional well-being. The Community Profiles are intended to share community-specific data with local governments and other organizations to help build a better understanding of local conditions and trends, and assist in making evidence-based planning and management decisions. These reports may also be useful for supporting communications with residents, and new resident, business and workforce attraction.

State of the Basin research draws on available data from a variety of sources including federal, provincial, and local governments, crown corporations, and non-profit initiatives. The RDI collects data from open access sources and through custom data requests. Indicators in this report are quantitative, and while quantitative indicators help establish foundational knowledge of well-being, they only tell part of the story. Qualitative information, including the RDI’s subjective well-being research, can further contribute to understanding the well-being of our communities and region. In order to understand geographic trends in indicators, this report compares community data with regional, provincial, and national data where appropriate. The geographic divisions used vary by indicator and depend on the topic being measured. **For additional community and regional comparisons for indicators in this report, please see the [State of the Basin reporting](#).**

For other research reports on Radium Hot Springs please see the [RDI’s Communities of the Columbia Basin](#). Statistics Canada also offers a suite of data sets through their [Census Program](#), where you can search by place name and topic, and [Census Mapper](#) provides this data in mapped format. Interior Health has also developed [Community Health Profiles](#) for municipalities across BC, and the [Weather Network](#) offers a variety of weather and climate statistics. [BC Stats](#) and [Local Government Statistics](#) are other online sources of community-specific statistics.

If you have questions or feedback on this Community Profile, please [contact the RDI](#).

LOCATION

Regional District	Regional District of East Kootenay
Coordinates	Longitude is 116°04'35"W Latitude is 50°37'12"N
Elevation	840 meters
Municipal Area	6.6 km ²

DEMOGRAPHICS

Population characteristics^{1,2} help planners and local decision makers to evaluate current and future community needs, particularly with respect to service delivery and potential impacts to the local economy.

Total Population

	2006	2011	2016	Percent change 2006 to 2016
Radium Hot Springs	735	777	776	5.6%
Regional District of East Kootenay	55,485	56,685	60,439	8.9%
British Columbia	4,113,490	4,400,057	4,648,055	13.0%

Population Projections

	Percent change in population projected 2017 to 2037
Windermere Local Health Area	4%
British Columbia	22%

Age Characteristics

	Radium Hot Springs (2016)			British Columbia (2016)		
	Male	Female	Total	Male	Female	Total
Children (0 to 14 yrs)	55	40	95	355,400	335,985	691,390
Emerging Labour Force (15 to 24 yrs)	30	30	65	280,615	265,930	546,540
Primary Labour Force (25 to 64 yrs)	225	230	440	1,246,670	1,314,475	2,561,145
Seniors (65+ yrs)	95	90	185	395,560	453,425	848,985
Total population	390	385	775	2,278,245	2,369,815	4,648,055
Average age of population (yrs)	47.2	47.4	47.3	41.5	43.1	42.3

FAMILIES & HOUSEHOLDS

Family characteristics¹ such as size and composition of families can help inform social, economic, health, and education programming, as well as planning and development around infrastructure needs.

Family Characteristics

	Radium Hot Springs (2016)	British Columbia (2016)
Average household size	2.1	2.4
Total number of families in private households	250	1,311,345
Total couple families	225	1,113,405
Couples without children	155	577,790
Couples with children	70	535,610
One child	30	221,065
Two children	30	230,705
Three or more children	10	83,840
Total lone-parent families	20	197,940
Female parent	15	155,670
Male parent	5	42,265
One child	10	125,890
Two children	10	54,900
Three or more children	5	17,145
Total persons not in census families in private households (singles)	130	882,895

Marital Status

	Radium Hot Springs (2016)			British Columbia (2016)		
	Male	Female	Total	Male	Female	Total
Total population 15 years+	335	340	680	1,922,840	2,033,825	3,956,665
Married	185	180	370	959,690	965,645	1,925,345
Living common law	45	45	90	186,485	185,505	371,985
Single (never married)	60	60	125	582,975	493,110	1,076,085
Separated	20	10	25	45,225	60,475	105,700
Divorced	25	20	40	103,475	160,395	263,870
Widowed	5	25	30	44,990	168,700	213,685

MOBILITY

This indicator measures the movement of people into and out of the community with respect to where they lived five years prior. Non-movers are those who have not moved. Movers include non-migrants and migrants. Non-migrants are persons who did move, but remained in the community. Migrants include those who moved within the province (intraprovincial), as well as those who moved to or from another province (interprovincial), and those who moved to Canada from outside the country (external migrants).¹

	Radium Hot Springs (2016)	British Columbia (2016)	Canada (2016)
Non-movers (%)	56.1	57.4	61.8
Movers non-migrants (%)	12.9	21.7	20.7
Intraprovincial migrants (%)	15.9	11.6	10.6
Interprovincial migrants (%)	13.6	3.9	2.5
External migrants (%)	1.5	5.4	4.2

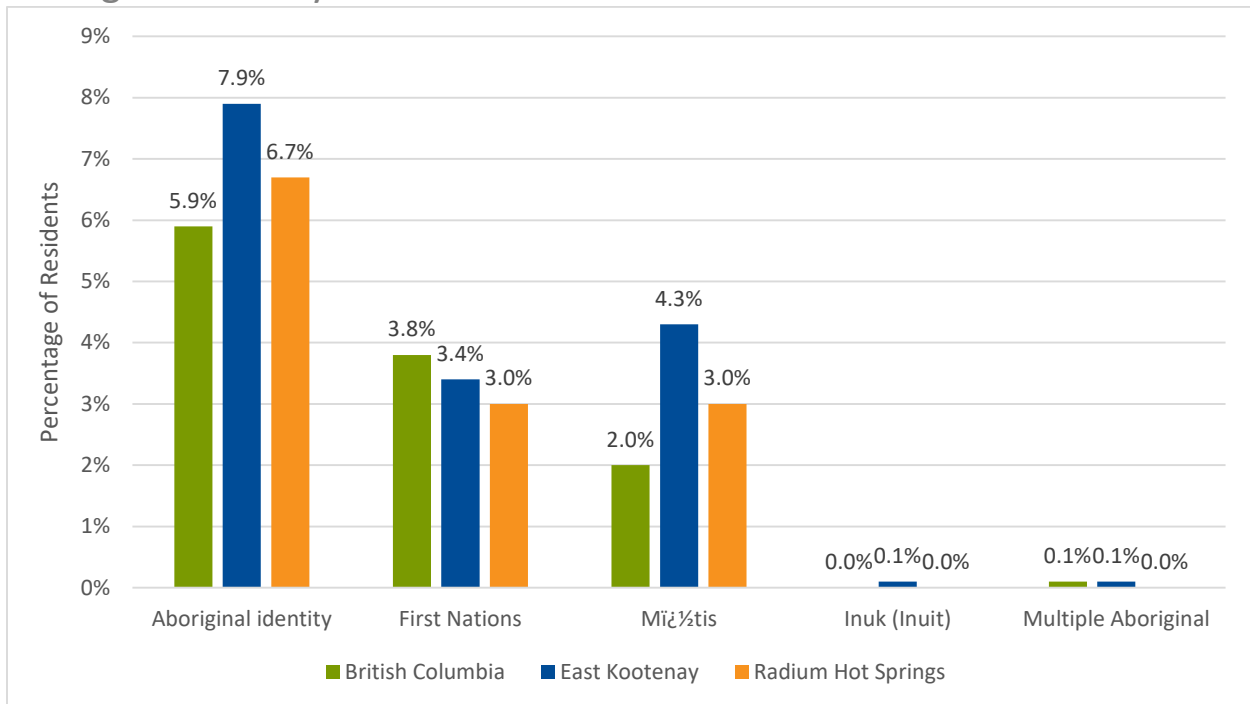

CULTURAL CHARACTERISTICS

Culture is multi-faceted and dynamic, embracing several aspects that describe and shape our way of life. Ethnic origin, Aboriginal identity, and language are a few indicators that provide insight into a community’s cultural diversity.¹

Ethnic Origin

Aboriginal Identity

Language Spoken Most Often at Home

	Radium Hot Springs (2016)	East Kootenay (2016)	British Columbia (2016)
English (%)	96.1	97.8	83.2
French (%)	>1	0.6	0.4
Non-official languages (%)	3.3	1.6	16.4

INFRASTRUCTURE

Infrastructure is the physical foundation for community well-being. Water, sewer, utilities, roads, and waste management are all critical for a functioning healthy municipality.

Water Services

Provider	Village of Radium Hot Springs
Average per capita demand (2015)³	Not available
Annual residential water rate (2018)	\$272.70

* For comparison, average per capita demand for BC is 494 litres (2016)⁴

Sewer Services

Provider	Village of Radium Hot Springs
Type of treatment	Secondary
Annual sewer rate (2018) (residential)	\$159.30
Annual sewer rate (2018) (industrial/commercial/institutional)	varies by user type

Service Providers

Electric power	BC Hydro
Natural gas	N/A
Telecommunications⁵	Telus, Shaw, Xplornet, Bell, Rogers, Wink Wireless, Davinci Broadband, Columbia Basin Broadband Corporation

Landfill & Waste Management

Landfill location	Columbia Valley Landfill
Regional District waste disposal rate (2016)⁶	561 kg/person/year
Type of service	No pick up service

* For comparison, average per capita waste disposal rate for BC is 472 kg/person/year (2016)⁶

Traffic Volumes

Station location ⁷	Annual Average Daily Traffic	Monthly Average Daily Traffic	Monthly Average Daily Traffic
	(number of vehicles)	January	July
Route 3, 2.0km West of the BC/Alberta Border, Crowsnest Pass (P-36-1EW)	4,708	3,396	7,169
Route 1, 15km East of Route 95, Golden (P-37-5EW)	6,402	3,577	11,942

BC Transit

Radium Hot Springs is serviced by BC Transit's Columbia Valley Transit System which includes two connected fixed-routes: The North Connector, including Edgewater, Radium Hot Springs, and Invermere, and the South Connector which serves Invermere, Windermere, Fairmont Hot Springs, and Canal Flats. There is also a Golden/Cranbrook Health Connection which serves the valley through a partnership with the Kootenay East Regional Hospital District, RDEK, and BC Transit to provide transportation to non-emergency medical appointments.

HOUSING

Housing stock, diversity, availability, and costs are an important basic foundation to a functioning and affordable community. Several indicators related to housing are included in this community profile.^{1,8}

Dwellings by Structure

	Radium Hot Springs (2016)	British Columbia (2016)
Total number of occupied private dwellings	350	1,881,970
Single-detached house	175	830,660
Apartment in a building that has 5 or more storeys	0	177,830
Other attached dwelling	160	824,190
Semi-detached house	30	830,660

Row house	55	147,830
Apartment or flat in duplex	5	230,075
Apartment in a building that has fewer than 5 storeys	65	385,140
Other single-attached house	0	3,755
Moveable dwelling	10	49,290

Dwellings by Period of Construction

	Radium Hot Springs (2016)	British Columbia (2016)
Total number of occupied private dwellings	335	1,881,970
1960 or before	10	267,560
1961 to 1980	35	559,485
1981 to 1990	40	289,565
1991 to 2000	85	331,865
2001 to 2005	55	125,335
2006 to 2010	90	171,945
2011 to 2016	10	136,210
Private dwellings in need of major repairs	6.0%	6.3%

Residential Property Values

	Radium Hot Springs (2018)	Columbia Basin-Boundary (2018)
Number of single family dwellings	270	45,145
\$0 to \$99,999	0%	2.0%
\$100,000 to \$199,999	9.6%	17.9%
\$200,000 to \$299,999	28.9%	31.3%
\$300,000 to \$399,999	40.4%	23.0%
\$400,000 to \$499,999	13.7%	13.4%
\$500,000 to \$599,999	4.8%	5.6%
\$600,000 and over	2.6%	6.7%
Median value of dwelling	\$325,150	\$295,600

* For comparison, the median value of dwellings for BC is \$500,874¹

Household Occupation

	Radium Hot Springs (2016)	East Kootenay (2016)	British Columbia (2016)
Private dwellings occupied by usual residents (%)	40	76	91
Private households - owners (%)	83.6	78	68
Private households - renters (%)	16.4	22	32

Housing Affordability

When more than 30% of a household's income is spent on shelter costs, the housing is deemed unaffordable. Shelter costs include electricity, oil, gas, wood, or other fuels, water and other municipal services, mortgage payments, property taxes, condominium fees, and rent. In Radium Hot Springs, 13% of owner households and 27% of tenant households are spending more than 30% of their income on shelter related costs. For BC, the percentages are 21% of owner households and 43% of tenant households.

INCOME

Income is a substantial determinant of personal well-being and income levels reflect economic opportunity.

Household Income

Before-tax (2015) household income ¹	Radium Hot Springs		British Columbia		Canada	
	Number	%	Number	%	Number	%
Under \$5,000	5	1.4	43,415	2.3	228,790	1.6

Canada Pension Plan/Quebec Pension Plan (% taxfilers)	36.8	32.6	32.4
Canada Child Tax Benefit (% taxfilers)	19.3	22.1	24.4
Workers compensation (% taxfilers)	5.3	4.2	3.5
Social assistance (% taxfilers)	3.5	6.6	9.2
Private pensions (% taxfilers)	28.1	21.6	21.2
RRSPs (% taxfilers)	5.3	2.7	2.4
Other income (% taxfilers)	24.6	27.8	26.0

Low Income Measure

The Low Income Measure (LIM) is a commonly-used indicator of poverty.¹⁰ It is a fixed percentage (50%) of median adjusted household income, where “adjusted” means that household needs are taken into account. A family is considered to have low income when their income is below the LIM for their family type and size. According to 2015 taxfiler data, 13% of people in Radium Hot Springs are considered to be low income. The provincial average is 15%.

	%	%
Less than 15 minutes	57.7	28.8
15 to 29 minutes	28.8	32.9
30 to 44 minutes	3.8	20.3
45 to 59 minutes	3.8	8.8
60 minutes or more	3.8	9.1

Unemployment

Unemployment rates are a strong indicator of economic health. Unemployment rates based on the 2016 Census are shown.¹ [Labour Force Survey](#) data is available at a regional scale and is updated more frequently.

	Total	Male	Female
Radium Hot Springs	12.5	15.6	9.4
Regional District of East Kootenay	7.6	9.1	5.8
British Columbia	6.7	7.1	6.3

Labour Force Replacement Ratio

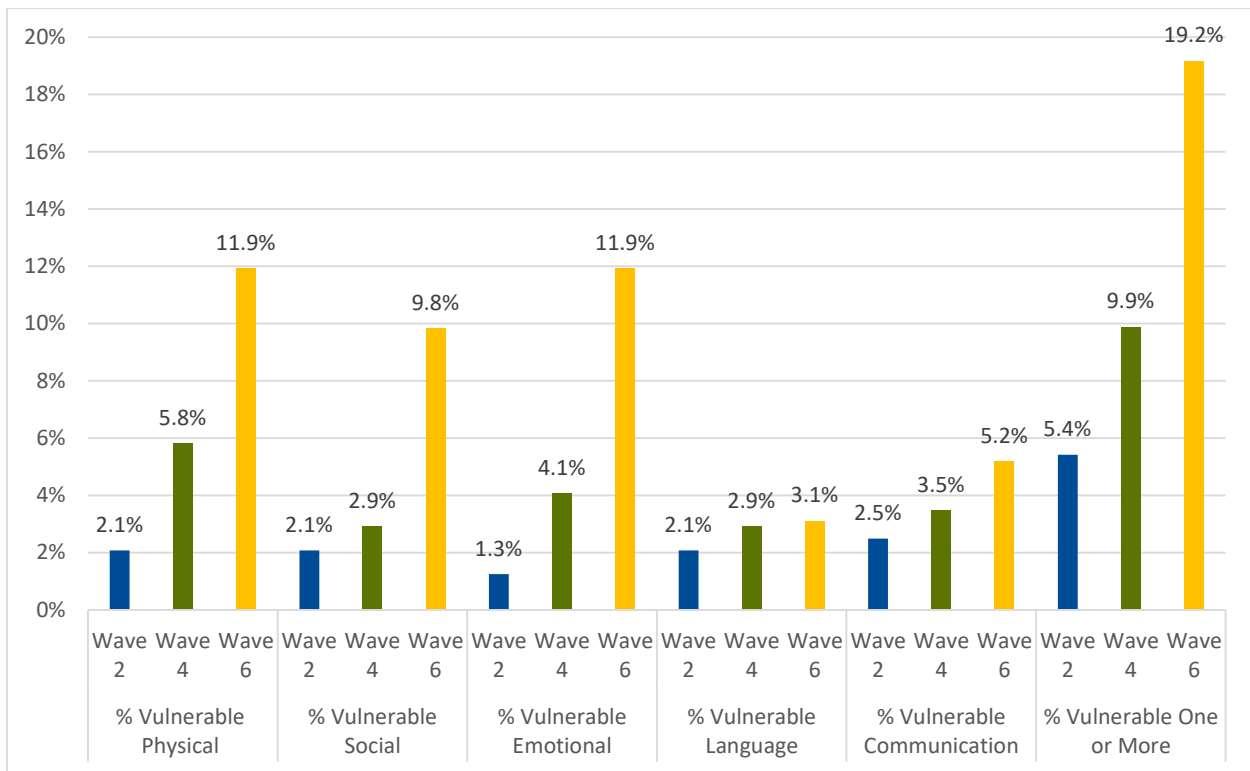

The Labour Force Replacement Ratio is a measure of the ratio of the number of people aged zero to 14 in 2016 who will be entering the workforce to the working population aged 50 to 64 who will be leaving the workforce in the next 15 years. A ratio of 1.0 means the child and retiree populations are the same. The higher the ratio, the greater the young people there are relative to potential retirees. A ratio of less than 1.0 means an area is unable to maintain the current labour force with local replacement workers. The ratio is calculated using the Census 2016 data.¹

	Labour Force Replacement Ratio (2016)
Radium Hot Springs	0.43
Regional District of East Kootenay	0.66
British Columbia	0.67

EDUCATION

Early Development Instrument

The early years are crucial in influencing a range of health and social outcomes. Research shows that many challenges in adults, including mental health and criminality, have their roots in early childhood. The Early Development Instrument (EDI) assesses the developmental readiness of children with an aim of identifying vulnerabilities. Vulnerability is reported by the percentage of children who are vulnerable on one or more scales as well as for each scale (physical, social, emotional, language, communication). Data is collected in “waves”; each wave is data from consecutive school years. EDI scores are available at the school district and neighborhood level.¹¹ The chart below shows the percentage of children vulnerable on each of the scales and vulnerable on one or more scales for the Windermere neighborhood for Wave 2 (2004-2007), Wave 4 (2009-2011), and Wave 6 (2013-2016). For comparison, provincial data for Wave 6 shows that 29% of children are vulnerable on one or more scales.

Public School Enrollment

Radium Hot Springs is in the Rocky Mountain School District (#6). Student enrollment¹² measures the number of all adults and school-age persons who are enrolled in public schools and working towards graduation. Enrollment trends provide information about changes in the school-age population and is valuable for forecasting and planning.

	2012/13	2013/14	2014/15	2015/16	2016/17
Total student enrolment	3,086	3,082	3,102	3,150	3,249
Elementary student enrolment	1,761	1,789	1,844	1,939	1,995
Secondary school enrolment	1,322	1,289	1,257	1,211	1,248
Aboriginal students	666	645	653	663	641
English Language Learners	55	56	39	50	57
French Immersion	176	145	126	123	144
Non-residents	95	87	95	86	108

* Differences between total and elementary and secondary enrollments due to a small number of Graduated Adults.

High School Completion

High school completion rates indicate how successful our families, schools, and communities are in supporting youth in achieving graduation. This indicator measures the proportion of students who graduate within six years of the first time they enroll in grade 8.¹² High school graduation is generally a minimum education level for most employment and a foundation for positive workplace conditions and future employment success and well-being.

	2011/12	2012/13	2013/14	2014/15	2015/16	5-year average
Rocky Mountain (SD 6)	78.8%	76.5%	79.2%	76.3%	65.5%	75.3%
All BC Public Schools	81.8%	83.6%	84.2%	83.9%	83.6%	83.4%

Educational Attainment

Education levels are highly correlated with social determinants of health such as income, employment security, and socio-economic opportunity. This indicator measures the highest level of attainment of people aged 25 to 64 years.¹

QUALITY OF LIFE & CIVIC ENGAGEMENT

Life Expectancy

Life expectancy is a widely used indicator of population health. This indicator reports the number of years a person is expected to live based on mortality statistics for a Local Health Area (LHA).¹³ The average from 2011 to 2015 was analysed. The Windermere LHA has a life expectancy of 83.0 years. The BC life expectancy is 82.6 years.

Voter Turnout

Voter turnout is an indicator of the health of a democracy, and can be seen as a reflection of civic mindedness and citizen engagement. This indicator measures the percentage of eligible voters who voted in local government elections for 2008, 2011, 2014 and 2018.¹⁴

	2008	2011	2014	2018
Radium Hot Springs	34%	32%	acclaimed	acclaimed
Columbia Basin-Boundary average	51%	45%	41%	51%

Charitable Donations

Charitable donations¹⁵ play a role in improving well-being by providing support to a variety of initiatives. Charitable giving reflects a capacity to give, and is tied to the economy, where people may give more or less depending on their financial situation and the state of the economy.

Location (2015)	Total # taxfilers	Total charitable donors	Percent charitable donors	Total charitable donations (\$'000)	Median donation	Median income
Radium Hot Springs	910	180	19.8%	\$145	\$190	\$56,850
East Kootenay	46,110	9,440	20.5%	\$12,605	\$280	\$60,930
British Columbia	3,488,250	699,780	20.1%	\$1,448,625	\$430	\$58,010
Canada	26,186,760	5,495,900	21.0%	\$9,132,170	\$300	\$58,600

Public Library Usage

Libraries play an important role in the vibrancy of a community, as libraries are often a gathering place for residents where a diversity of programs and services are offered. Library statistics¹⁶ are useful for providing an indication of the health and capacity of these facilities in serving community needs and interests.

Indicator (2017)	Radium Hot Springs Public Library	Average all libraries in Columbia Basin-Boundary
Population served	1,322	6,995
Total active cardholders as % of population served	20.1%	41.3%
Attendance at children's and young adult programs	62	3,320
Total employees, FTE	1.1	3.8
Volunteer hours worked	676	1,254
Number of in-person visits	1,387	42,805
Total visits per capita	2.0	8.4
Average hours open per week	10.8	38.5
Total local government support	\$39,240	\$239,789
Local government support per capita	\$29.68	\$35.10
Total other revenue	\$9,740	\$40,102

BUSINESS

Business Formations

Business formations measures the number of incorporations per year¹⁷, and is an indicator of the overall business climate, providing a sense of an expanding or contracting economy.

Year	Radium Hot Springs	East Kootenay	British Columbia
2013	0	221	32,225
2014	2	252	34,951
2015	4	236	37,934
2016	4	262	43,556
2017	5	247	46,247

Total Building Permits

This indicator measures the value of building permits issued annually by a defined region.¹⁸ Building permits and housing starts are well-accepted indicators of economic performance.

Year	Radium Hot Springs (\$'000)	British Columbia (\$'000)
2013	1,447	\$9,976,104
2014	4,988	\$11,076,715
2015	2,093	\$13,125,233
2016	4,758	\$13,255,024
2017	9,144	\$15,710,782

Building Permits by Type

Type ¹⁸	Radium Hot Springs (2017)	British Columbia (2017)
Residential (\$'000)	\$4,879	\$11,498,362
Commercial (\$'000)	\$4,265	\$2,439,623
Industrial (\$'000)	–	\$658,482
Institutional and Government (\$'000)	–	\$1,114,315
Residential (total number of units)	17	44,105

Visitor Centre Statistics

Visitor Centre Statistics¹⁹ are a common indicator of tourism, an economic sector for many communities.

Year	Total Visitors Radium Hot Springs Visitor Centre	Change from previous year Radium Hot Springs	Change for all visitor centres in BC
2013	49,482	-6.8%	-5.0%
2014	58,782	18.8%	2.3%
2015	74,566	26.9%	2.9%
2016	67,202	-9.9%	-1.2%
2017	73,507	9.4%	-0.5%

LOCAL GOVERNMENT

Local governments are required to submit data annually to the Ministry of Municipal Affairs and Housing, including annual reports and financial statements.²⁰ Municipal revenues and expenses, and taxes on a representative house, provide an indication of a local government's capacity, financial needs and priorities, and costs to residents.

Municipal Revenues

	Radium Hot Springs (2017)	% of Total Revenue
Total Own Purpose Taxation and Grants in Lieu	\$2,314,389	39.9%
Sale of Services	\$1,413,135	24.4%
Transfers from Federal Governments	\$492,208	8.5%
Transfers from Provincial Governments	\$521,303	9.0%
Transfers from Regional and Other Governments	\$1,059,137	18.3%
Investment Income	\$157,648	2.7%
Income from Government Business Enterprise	\$0	0%
Developer Contributions	\$82,500	1.4%
Disposition of Assets	(\$246,732)	-4.3%
Other Revenue	\$0	0%
Total Revenue	\$5,793,588	

Municipal Expenses

	Radium Hot Springs (2017)	% of Total Expenses
General Government	\$342,372	11.1%
Protective Services	\$309,288	10.1%
Solid Waste Management and Recycling	\$0	0%
Health, Social Services and Housing	\$0	0%
Development Services	\$311,491	10.1%
Transportation and Transit	\$342,480	11.1%
Parks, Recreation and Culture	\$159,591	5.2%
Water Services	\$363,533	11.8%
Sewer Services	\$406,077	13.2%
Other Services	\$0	0%
Amortization	\$842,078	27.4%
Other Adjustments	\$0	0%
Total Expenses	\$3,076,910	

Taxes & Charges on a Representative House

Radium Hot Springs (2018)	
House value	\$250,786
School	\$510
General Municipal Total	\$721
Regional District	\$197
Hospital	\$38
BCA, MFA, and other	\$60
Total Residential Variable Rate Taxes	\$1,525
Total Residential Parcel Taxes	\$370
Total Residential User Fees	\$450
Total Residential Property Taxes and Charges	\$2,344

* A representative house is based on the assessment and occurrence of single family residential properties, and does not include vacant properties, multi-family, strata, etc.

ENVIRONMENT

The environment is a foundation for many aspects of well-being. Parks and protected areas help to safeguard wild spaces and species, and provide opportunity for residents and visitors to recreate and connect with nature. Weather and climate conditions and trends help us understand the context in which a community operates, and climate projections can help with forecasting and adaptive planning.

Parks & Protected Areas

Radium Hot Springs has two national parks and seven provincial parks and protected areas within a 40 kilometer radius of the municipality. It also has at least two local parks and greenspaces within its boundaries.

Provincial Parks & Protected Areas^{21,22}

Banff National Park
 Columbia Lake Park
 Columbia National Wildlife Area
 Dry Gulch Park
 James Chabot Park
 Kootenay National Park
 Mount Assiniboine Park
 Purcell Wilderness Cons. Park
 Windermere Lake Park

Local Greenspaces²³

Legends Park
 Valley Zipline Adventures

Weather & Climate

Weather and climate data is based on the Government of Canada's climate normals and averages for the Kootenay National Park West Gate station.²⁴

	January	July
Daily average (°C)	-6.8	18.4
Daily maximum (°C)	-3.9	25.6
Daily minimum (°C)	-9.7	11.2
Extreme maximum (°C)	9.5 (1984)	37.0 (1987)
Extreme minimum (°C)	-35.6 (1969)	3.0 (1983)
Rainfall (mm)	5.9	53.6
Snowfall (cm)	27.2	0
Extreme daily rainfall (mm)	25.4 (1971)	25.4 (1988)
Extreme daily snowfall (cm)	32.0 (1982)	0 (1969)
Extreme snow depth (cm)	56 (1982)	0 (1981)

Modeled Climate Data – History & Projections

Climate data was modeled across the Columbia Basin-Boundary for a 10x10 km grid. The figures below show median values from results of 12 climate models for each time period and for low carbon and high carbon emission scenarios for the grid closest to Radium Hot Springs.²⁵ Low carbon scenarios assume global greenhouse gas emissions are drastically reduced from current levels, while high carbon scenarios assume greenhouse gas emissions continue increasing at current rates.

Variable	Recent Past (1951 - 1980)	Near Future (2021 - 2050)		Far Future (2051 - 2080)	
		Low Carbon	High Carbon	Low Carbon	High Carbon
Annual mean temperature	3.3 °C	5.0 °C	5.5 °C	6.2 °C	7.4 °C
Annual total precipitation	441 mm	456 mm	449 mm	466 mm	475 mm
